IQUA UFO

Bluetooth® Portable Handsfree for Home and Office

Iqua UFO is a handsfree device ideal for use in the office and home enabling both group conversations as well as one-to-one communication. Because it is lightweight and compact, it is also portable enough to travel with you. The elegant design of the UFO circular table-top model has definite "gimme" appeal and is the new "must-have" for corporate executives and busy families.

Although the UFO is only pocket-sized, it incorporates great features such as a clock, caller identification, contacts download and a radio. You can also use it as a wireless speaker and microphone for your computer via the Bluetooth Headset profile, and apply the UFO to VOIP internet calls or online messengers such as MSN Messenger, NetMeeting, Skype, Apple iChat AV.

Features

- Power on/off
- Volume control
- Answer/end/reject call
- Last number redial
